PARKS, William Arthur Professor of Palaeontology - U of T March, April 1919 (017)

March 4th, 1918

Professor W. A. Parks,

University of Toronto.

Dear Professor Parks:

Mr. MacQueen of the Alumni Association has asked me whether instead of the outline you have given here you would give an article of approximately 500 words on what the Department of Geology as a whole has done and is doing in the way of research. I think that he has in mind what your Department has actually done. I presume that just a brief outline of Dr. Coleman's and your own results would be all that would be required.

Yours sincerely,

President.

ROYAL ONTARIO MUSEUM OF PALAEONTOLOGY,

BLOOR STREET AND AVENUE ROAD,

TORONTO, ONT.

W. A. PARKS, DIRECTOR.

March 7,1919.

The President,
University of Toronto.

Dear Sir Robert,

I have your letter of recent date re an article for the Monthly on the subject of the research work done in this Department.

The notes sent you in the first instance were prepared under the impression that you would yourself write a general statement in the matter.

As Mr.McQueen seems to require a statement over a signature,it seems to me more fitting that Professor Coleman should prepare it. I have taken the liberty,therefor,of handing your letter to him and am assured that he will supply Mr.McQueen with the required information.

Respectfully yours,

W. A. Parks.

April 22nd, 1919

Professor D. A. Starr,

University of Toronto.

Dear Professor Starr:

I have spoken to the Registrar about the appointment of examiners in Scientific Agents and Surveyors on the lines of your letter. He informs me that you have misunderstood his opinion in regard to the matter and that he intends next Friday to have appointments for examinations of these subjects made and that you and Professor Goodrich will be associated as previously.

Yours sincerely,

President.
